Childhood is the happiest time of a person's life.

Actually, I think the statement "Childhood is the ~~the~~ happiest time of a person's life" has very deep meaning. Every body's childhood is so different. Somebody was happy, had a lot of friends and was so loved by his/her parents. But unfortunately, there are people who didn't know what love, support, care mean. And it has so big influence on the one's childhood. Children get depressed and stressed. And it's so bad. Actually, the childhood is the most important part of my life because it has so big meaning for us that influences on ~~the~~ our future and life. But if we look at the statement by the other way, we will accept it's the happiest time of a person's life because children get everything unusual, new, amazing, attractive, they get so surprised by taking new information. Teenagers change, they have their own opinions, thoughts, reactions. I think it's so attractive to watch a child who becomes more smart and gets his opinions. And I do really think children's worst dream is to grow old as soon as possible.
