I disagree with the statement "Childhood is the happiest time of person's life". I think so, because it is a very short period of your life. The second reason of my opinion is that in childhood you always must obey your parents, a lot of people don't like it, I think. The third reason is that instead of your favourite hobbies you must go to school and do your homework everyday. Moreover, you can't work and earn money, so sometimes you can't buy what you want. But other people don't think so. The most of people liked playing toys and computer games, liked ^{to walk} carelessly ~~walking~~ in the streets with friends. And they can mention more reasons of why they like their childhood. But from my point of view, childhood is boring, that's why I disagree with this statement.
